

CAT

Sexual Healing and Protection

Powerfully sensual, self confident and often aloof, Cats can be invoked as a powerful form of protection on the sexual level. When Cat makes an unexpected visit, ask yourself if you have sexual issues that need to be healed or if you are tempting fate with an unwanted pregnancy. Has there been trauma or interference that has not been addressed or appropriately finalised to allow it to become an issue of the past and not a memory that haunts the present?

Cat, particularly black Cat, works

through us at these times, so honour her sensuality and sense of self worth and self love as she makes her healing house call.

GRASSHOPPER

Success

Equipped with wings and capable of propelling itself twenty times its own body length, Grasshopper heralds forward movement – giant leaps forward. When Grasshopper appears, one can expect to be pushed outside one's comfort zone into areas of greater success than previously thought possible. With Grasshopper comes a warning, though – if you are planning on starting a new business, keep your business partners to a minimum – or better still, go it alone. Grasshopper knows well enough the damage too large a party can do to a fruitful crop when control is poorly managed or too loosely shared.

Grasshopper Dreaming promotes success and the lightning-speed forward movement into successful ventures. If you are harbouring new ideas, watch for Grasshopper's blessings.

Butterfly and Caterpillar

Transformation

As the Butterfly moves from one developmental stage of its life to another, from the caterpillar to the chrysalis and then the butterfly, it is showing trust in its ability to grow and adapt to new situations while trusting its new wings. The Butterfly is a powerful symbol for anyone who is contemplating, or is in the midst of, a major change.

As the Butterfly is deaf, she encourages us to listen to our other senses when we are in doubt as to when to begin our transformation – to listen with our heart instead of our ears and to look within for guidance instead of listening to that of others.
